# How can we help each other get better?

- **Work together**
  - “Build a network to defeat a network!”
- **Thoughts to Consider...**
  - Do we have enough data?
  - How do we make sense of the data we already have?
  - How best to find non-cooperative vessels?
  - How can we work together to better share information and intelligence for our mutual maritime security?
  - What are the emerging threats?

*“Integrate the Maritime Community, Understand the Domain, Help Protect the Nation”*
